

Caution Concerning Forward-Looking Information:

This website contains “forward-looking information” regarding the availability of funds under the Trafigura loan facility, the Company’s Kinsevere Stage II project and the operation of the Stage I HMS plant at Kinsevere. The purpose of forward-looking information is to provide the reader with information about management’s expectations and plans. Assumptions upon which such forward-looking information is based include that all conditions to availability of the Trafigura loan facility will be satisfied or waived, that the development of Kinsevere Stage II will proceed as planned and that the Kinsevere Stage I HMS plant will continue to operate as expected. Many of these assumptions are based on factors and events that are not within the control of Anvil (or Trafigura) and there is no assurance that they will prove to be correct. There can be no assurance that the conditions to availability of the Trafigura loan facility will be satisfied, or that the Stage II expansion of the Kinsevere copper mine will proceed as planned and within expected time limits and budgets, or that when completed, the expanded Kinsevere copper project will operate as anticipated, or that the Kinsevere Stage I HMS plant will operate in accordance with forecast performance or that the Company will complete a refinancing of the Trafigura loan facility as planned. Readers are cautioned that forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among others, risks related to mining operations, including political risks and instability, risks related to international operations, actual results of current construction and development activities, conclusions of economic evaluations, changes in project parameters as plans continue to be refined, as well as those factors discussed in the section entitled “Risk Factors” in the Company’s annual information form, which is available under the Company’s profile on SEDAR at www.sedar.com. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward looking information.
