Successful Mining in the DRC

people | explore | develop | mine | grow | sustain

Key Ingredients

- Deposits : DRC has some of the highest copper grades in the world
- Changing Investment Climate:
 - New Mining Code (2003)
 - New Democratic Government (2007)
 - Significant multilateral and bilateral engagement

Anvil's Approach

- Early entry into the DRC : “first mover advantage”
- Staged development : manageable growth
- Maximising Congolese involvement and capacity building:
 - Workforce – 2,550
 - Congolese – approx. 93%
- Establishing meaningful partnerships : World Bank, MIGA, Pact Inc.
- Setting the highest standards in community engagement and social development
- Imbedding internationally accepted codes of conduct into the culture of the company
- Strategic focus on growth
